Overall Rank: 33

Change: ▼ 2
 Determinants Rank: 32
 Outcomes Rank: 37

Strengths:

- Low prevalence of obesity
- Low incidence of pertussis infections
- Low levels of air pollution

Challenges:

- High rate of drug deaths
- Low high school graduation rate
- High percentage of uninsured population

Ranking: Florida is 33rd this year, it was 31st in 2012.

Highlights:

- In the past year, smoking decreased from 19.3 percent of adults to 17.7 percent; nearly 2.8 million adults still smoke in the state.
- In Florida, almost 3.7 million adults are physically inactive, and approximately 4.0 million adults are obese.
- For the fourth consecutive year, the high school graduation rate increased and is now 70.8 percent of incoming ninth graders who graduate in 4 years.
- Violent crime continued its 20-year decline, reaching 487 offenses per 100,000 population.
- In the past 5 years, the rate of preventable hospitalizations decreased from 70.1 to 63.5 discharges per 1,000 Medicare enrollees.
- In the past year, the gap in health disparity by educational attainment increased from 24.6 percent to 32.7 percent.

Health Disparities:

In Florida, 54.8 percent of adults aged 25 years and older with at least a high school education report their health is very good or excellent compared to only 22.1 percent with less than a high school education, resulting in a gap of 32.7 percent.
